

This photography business is all about making you happy as a clam! Happy people make happy pictures! It is my personal goal to give you the best experience, that will last you a lifetime. That experience begins with your first email or phone call to me! Just click "Contact" in the menu!

I will guide you through the process, first by making sure you understand what is included in all of my packages. Then I can tailor your experience even more when I find out more about you, your wedding, and your story. Sounds fun and easy, right?

The budget is probably important to you, so you should know that \$1875 is the starting point for my packages. Please contact me for information on all of my packages and what they include. I have a la carte options too!
